A Move in the Right Direction
This Building is on the Lightpath Network

A STATE-OF-THE-ART BUSINESS ENVIRONMENT

When a building is connected to the Lightpath network, your business is at an advantage. This building offers tenants best-in-class communications services that can help your business increase productivity and improve performance. Your business can easily connect to the industry-leading communications solutions that fit your needs today with the scalability to achieve tomorrow’s goals.

A CLASS "A" AMENITY THAT BENEFITS YOUR BUSINESS

- **Seamless end-to-end management** – We own, operate and manage our 100% fiber-optic network, controlling every aspect of your installation and overall experience.
- **Proven reliability** – Our self-healing fiber ring topology protects your critical data and provides your business with 99.99% network availability and resiliency.
- **Ethernet-based services** – Data, Internet, voice and video solutions tailored to meet your needs.
- **Easy scalability** – Lightpath ensures capacity at the point of installation to allow for your business’ changing needs.
- **Flat-rate pricing** – Our predictable, flat-rate pricing makes it easy for you to manage your telecom budget and control costs.
- **24/7 expert support** – With the Lightpath Customer First Center, Network Monitoring Center and Customer Care Online, you can access account information or talk to local experts for award-winning support, any time you need it.
