# Lightpath Internet

Whether your business needs faster, more reliable connections or true network diversity, Internet access delivered over the Lightpath Metro Ethernet network offers all-inclusive solutions that are scalable to grow with your network requirements and sized to fit your company's connectivity needs.

## High-speed, high-performance Internet service

### Internet Features

- High-speed symmetrical Ethernet access from 20Mb to 1000Mb
- E-mail accounts
- IP allocation (v4 and v6)
- Primary / Secondary DNS
- Optional Managed Router

## Experience the ease of our Metro Ethernet and our 100% fiber-optic network

- Unsurpassed reliability – Our self-healing fiber ring topology protects your critical data and provides superior network availability and resiliency.
- Easy scalability – We ensure enough capacity at the point of installation to meet your current and future data needs. As your business grows a simple software change is all it takes to upgrade with little or no downtime.
- Valuable security – We protect and segment all customer traffic on our network.
- True simplicity – Our flat-rate pricing, seamless installation, predictable billing and award-winning Customer Care make it easier to manage your budget and your network.

# Lightpath Internet Access
